

I would just like to say that K-LOVE provides a great service to the communities in which it is broadcast. It is a safe and family friendly station for the whole family to listen to and enjoy. The wholesome programing serves the community by giving an alternative to much of the garbage currently on the airwaves. It builds values that contribute positively to the community at large. It would be a shame for communities to loose any broadcasting such as K-LOVE if it were displace by an LPFM broadcaster providing other programming. Please leave K-LOVE and other similar braodcasting alone. Thank you.
